

PILE DRIVER AMUCK;
KILLS THREE INDIANS

Caused by Fierce Gale in Which Several Buildings Were Wrecked.

Needles, Cal., July 26.—Gripped by a fierce gale, swaying from side to side as it sped with lightninglike rapidity, a pile driver ran amuck on a long trestle near the bank of the Colorado river, near this city, yesterday, colliding with a coal car, which it whirled along in its van, and before its wild flight was checked dashed into a party of Indians, scattering their bodies to the four winds. Two of the Indians were killed and the others fatally injured. Several white men working near the track also were severely hurt by the flying wreckage. The wind was accompanied by heavy rain. Several buildings were wrecked in Needles, roofs blown away, trees uprooted and the big smelter here was badly damaged.

VOTERS CANNOT TAKE
MEMORANDA TO POLLS

Law Prohibits Any List of Names or Memorandum in Booths.

That a person entering the polls Saturday to cast his vote is prohibited from taking with him any memoranda or list of names on a slip of paper for his guidance in making out his ballot is plainly stated in section number 76, of the Terrell election laws. On account of the length of the official ballot, which is 22 inches long, and the numerous names thereon, many persons have expressed the desire to take with them a memorandum of the list of names that they desire to vote for, so they will not make any mistake in casting a vote for the wrong person.

Under that section of the election

law the judge of the election at the polling place, can require the citizen to answer under oath before he secures an official ballot whether he has been furnished with any paper or ballot on which is marked the names of anyone for whom he has agreed, or promised to vote, or has been requested to vote, or has such a paper in his possession as a guide, shall be guilty of a misdemeanor and upon conviction shall be punished by a fine of not less than \$100 nor more than \$500, and confined in the county jail for 30 days.
